Issued July 2024

EXPERIENCE

Full Stack Development Intern

Cognifyz Technologies | Remote

January 2025 – February 2025

- Built web apps using **React**, **Node.js**, **Express** and **MongoDB**.
- Created **APIs** for handling data and connecting with other services.
- Made responsive interfaces using **React** and **Bootstrap**.
- Added login features and worked with external **APIs**.
- Used **Git** and **GitHub** to manage code.

EmpowerNet – GNEC Hackathon 2025 (Spring Edition)

Front-End Developer | Social Impact Project

May 2025

- Developed the front end of **EmpowerNet**, connecting women with job, education, and training opportunities.
- Built user interfaces using **React** to ensure a responsive and accessible experience.
- Collaborated with team members to integrate partner data from NGOs and companies offering dedicated opportunities.
- Presented the project at a **GNEC Hackathon** focused on social impact, gaining hands-on experience in rapid development and teamwork.

PROJECTS

Full-Stack Developer (Project-Based Experience)

Skill Set | [skill-set-app.vercel.app](#)

August 2024 – Present

- Developed a single-page application using **React** for the front end and **Node.js** with **Express** for the Backend.
- Designed and implemented **RESTful API** endpoints to support full **CRUD** functionality.
- Utilized **MongoDB** for data storage, with effective schema design and indexing for performance.
- Integrated front-end and back-end components via **Express** to ensure consistent data handling.
- Managed code versioning and collaborative development using **Git** and **GitHub**.
